INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Board of Directors
Sand Creek Telephone Company
Sand Creek, Michigan

We have reviewed the accompanying balance sheets of Sand Creek Telephone Company (a corporation and a wholly owned subsidiary of Sand Creek Communications Company), as of December 31, 2013 and 2012, and the related statements of income and retained earnings, and cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the reviews in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

1. Summary of Significant Accounting Policies

These financial statements include the financial position and results of operations of Sand Creek Telephone Company, a wholly-owned subsidiary of Sand Creek Communications Company.

The Company is located in Lenawee County, in the State of Michigan. The Company provides local exchange service and access to the toll network. The Company grants credit to customers, substantially all of whom are local residents. Additionally, the Company grants credit to interexchange carriers for access to the public switched telephone network. These trade receivables are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis, thus trade receivables do not bear interest, although a finance charge may be applied to accounts that are more than thirty days past due. Approximately of the Company's operating revenue consists of access revenue from interexchange carriers.

The Company does not always require collateral from either the customers or telecommunications providers. Accordingly, failure to collect on these accounts would result in a direct loss of the amounts uncollected. However, a portion of these losses would be recoverable through the settlement process described below. Due From Subscribers is shown net of the allowance for doubtful accounts of and at December 31, 2013 and 2012, respectively. The Company's estimate is based on historical collection experience and a review of the current status of accounts receivable. The Company generally does not hold financial instruments with off-balance-sheet credit risk.

The accounting records of the Company are maintained in accordance with the Uniform System of Accounts for Class A and B Telephone Companies prescribed by the Michigan Public Service Commission, which conform to accounting principles generally accepted in the United States of America.

Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates, primarily related to collectibility of receivables, access revenue settlement amounts and depreciable lives of property, plant and equipment. Actual results could differ from those estimates.

Inventory consists of materials and supplies for additions and maintenance of the telephone plant and telephone equipment held for resale. Inventory is priced at the lower of cost or market on a first-in first-out basis.

The Company expenses advertising costs when incurred. Advertising costs expensed during 2013 and 2012 were in the amounts of and , respectively.

Cash and cash equivalents includes cash and short-term, highly-liquid investments with original maturities of less than three months.

The Company paid, on a cash basis, interest in the amount of and in 2013 and 2012, respectively. All federal and state income taxes are paid by the Company's parent corporation.

The Company's cash accounts are subject to the Federal Deposit Insurance Corporation (FDIC) insurance limit of . At various times during the year the Company's cash account balances may exceed this amount in the normal course of business. Other investments are not covered by FDIC insurance. At December 31, 2013, cash and temporary investment account balances exceeded this limit by approximately .

Notes to Financial Statements

1. Summary of Significant Accounting Policies (Continued)

The Company provides access services to common (long distance) carriers to access the exchange of the Company. The Company receives settlements for providing interstate access service from the National Exchange Carrier Association. Intrastate access revenues are based on charges billed under the Company's Intrastate Access Revenue Tariff.

Both access revenues and local service revenues are recognized when earned, regardless of the period in which they are billed.

The Company recorded true-ups of prior years' estimated access settlements that decreased income by and , in 2013 and 2012, respectively.

2. Plant, Property and Equipment

Additions to telephone plant and replacements of significant units of property are capitalized at their original cost. When telephone plant is retired, its cost is removed from the asset account and charged against the depreciation reserve together with any related salvage and removal costs. No gains or losses are recognized in connection with routine retirements of depreciable telephone property.

Depreciation is provided under the straight-line method for accounting purposes by the application of rates, based on the estimated service lives of the various classes of depreciable telephone property. Such provisions were equivalent to an annual rate of % and % of the average cost of depreciable telephone plant in service for 2013 and 2012.

The balances of the major classes of plant in service as of December 31 are as follows:

	<u>2013</u>	<u>2012</u>
Land	\$	\$
General support assets		
Vehicles		
Work equipment		
Building		
Office furniture and equipment		
Computers		
Central office equipment		
Buried cable and drops		
Software		
Total	<u>\$</u>	<u>\$</u>

3. Common Stock

The Company is authorized to issue shares of stock. For both years ended December 31, 2013 and 2012, shares were issued and outstanding. The cost method is used to account for the repurchase of outstanding shares.

Notes to Financial Statements

4. Income Taxes

For income tax purposes, the Company is included in the federal consolidated and state combined tax returns with its parent, Sand Creek Communications Company. For financial reporting purposes, income taxes are computed and recorded as if the Company filed separate income tax returns, except that: (i) in the event the Company generates a net tax loss which is utilized in Sand Creek Communications Company's returns, the Company will be given the benefit of such loss, (ii) federal income taxes are calculated based upon the statutory tax rate in effect for Sand Creek Communications Company and its subsidiaries on a consolidated basis, and (iii) state income taxes are calculated based upon the tax rate in effect for Sand Creek Communications Company and its subsidiaries on a combined basis.

Total income tax expense for the years ended December 31, 2013 and 2012 was allocated as follows:

	<u>2013</u>	<u>2012</u>
Federal income tax (benefit):		
Current – operating	\$	\$
Deferred – operating		
Current – non-operating		
Total federal income tax (benefit)	\$	\$
Michigan income tax (benefit):		
Current	\$	\$
Deferred		
Total Michigan income tax (benefit)	\$	\$
Total corporate income tax (benefit)	\$	\$

Total federal income tax expense (benefit), divided by the sum of such tax expense (benefit) and net income (loss), results in an effective tax rate of approximately) and for 2013 and 2012, respectively. The difference between the Company's federal effective income tax rate and the federal statutory rate is primarily a result of non-taxable income, expenses deductible for financial statement purposes that are not deductible for tax purposes, and adjustments to prior year accruals.

Deferred taxes were provided for certain temporary differences between the book basis and tax basis of assets and liabilities (principally property, plant and equipment due to depreciation differences).

Deferred income taxes presented on the balance sheet consist of the following at December 31:

	<u>2013</u>		<u>2012</u>	
	<u>Federal</u>	<u>State</u>	<u>Federal</u>	<u>State</u>
Deferred tax liabilities	\$	\$	\$	\$
	\$	\$	\$	\$

Management believes that there is a greater than chance (more likely than not) that the entity is entitled to the economic benefit resulting from tax positions taken in income tax returns. No interest or penalties related to uncertain tax positions has been recognized in the income statements or balance sheets for the years ended December 31, 2013 and 2012. However, federal tax returns for years 2010 through 2013 and state tax returns for years 2009 through 2013 remain subject to possible audit.

5. Investments

Investments as of December 31, 2013 and 2012 consist of the following:

	<u>2013</u>	<u>2012</u>
NRTC patronage	\$ _____	\$ _____
	\$ _____	\$ _____

The investment in NRTC is recorded at cost plus patronage allocations net of patronage retirements. There is not a readily determinable market price for this investment.

6. Intangibles

The intangible asset consists of a signal acquisition agreement for programming to provide television service to the Company's customers which is being amortized over its effective life of five years. Amortization expense for the years ended December 31, 2013 and 2012 was _____ and _____ respectively.

Amortization expense over the next five years will be approximately as follows:

2014	\$
2015	
2016	
2017	
2018	

7. Leases

In January of 2013, the Company began leasing the use of a router. A seven-year lease in the amount of _____ per month has been executed. Total lease expense of _____ was recorded for 2013. Future minimum payments for the five years succeeding the balance sheet date are as follows:

2014
2015
2016
2017
2018

8. Retirement Plan

The Company has a defined contribution pension plan which is available to all employees of the Company. The Company matches each employee's elective deferral to a maximum of _____. Contributions to this plan were _____ and _____ for the years ended December 31, 2013 and 2012, respectively.

10. Contingencies

In 2014, the Company was named in a complaint initiated by Sprint Communications Company LP, alleging improper billings of switched access charges in prior years. The Company does not believe the claim is legitimate and intends to contest it. However, the outcome is unknown at this time.

11. Subsequent Events

Through June 23, 2014, the date that the financial statements were available to be issued, management has determined that there are no events subsequent to the balance sheet date that require accrual or disclosure.
